

Property Disposition

Community Services and Revitalization

11/26/2013

Measurement method		Why measure?		What is our goal?			
The number of properties sold, leased for interim use or annexed as a side yard in a month from the property inventory		To clear up legal issues that discourage economic investment or community development. When outgoing activity is highest, the Landbank is "churning" real estate to support a market demand and productive reuse.		Increase the number of property dispositions
